

## Efficiency Within Easy Reach

## The FAMA round shelf is the ideal complement to the market-leading FAMA pharmacy drawer.

For medicine packages which are frequently dispensed, the FAMA round shelf provides direct access with short distances. Using a combination of the FAMA full-height bays (for slow movers) and the FAMA round shelf (for fast movers) saves both time and space with a comparable investment volume since, overall, fewer drawer bays are required and access to the fast moving packages is much quicker.

### Advantages:

- Direct access from the point of sale to fast moving medication
- Very good visibility ensures that packages are quickly located
- Product filling and removal can take place simultaneously from both sides
- Simple and easy refilling thanks to patented magnetic mechanism
- Observance of the FIFO principle\* thanks to filling from the back

\* FIFO = first in - first out

Simple operation through rotatable shelves

Quick removal of packages

Easy refilling thanks to magnetic storage segments
